**Subject: Crashtag Application Data Protection Policies**

Dear Mr Connelly

As Data Protection Officer of the FIA - Federation Internationale de l'Automobile, I confirm to have reviewed the data protection policies and procedures established by AIMSS concerning the application "Crashtag" to be compliant with the European General Data Protection Regulation (GDPR).

Whilst this letter does not constitute legal advice, we have examined the measures set up by AIMSS, including technical security policies and data processing agreements with third parties. The Crashtag app appears to be consistent with the requirements of GDPR.

Yours sincerely,
